

The 50 MHz DX Bulletin

Volume 19, Issue 8

August 2008

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schools, K3HS. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K6FV. Subscription rates are \$24 U.S. first class mail, \$27 Canada/Mexico airmail, and \$30 by airmail elsewhere for 12 issues. Payments may be made to k6fv through PayPal. Circulation matters and DX reports should be sent to Victor R. Frank, K6FV, 12450 Skyline Blvd., Woodside, CA 94062-4554 USA. My Internet address is victor.frank@sri.com. My web site is <http://www.qsl.net/k6fv>. The bulletin may be freely quoted, provided that credit is given.

DX Operations

Most of the listings in this column came from OZ6OM's 50 MHz DX News.

Hongkong, VR2008O: is a special call the Hong Kong Amateur Radio DX Association will use on 40-6m during the Olympic Games July 15-August 31.

Maldives, 8Q7KK: Werner, DL1BKK, and Brigitte, DL1BKI, plan HF-6m operation from Kuramathi Is, MJ64LG, between August 29 and September 17.

Sierra Leone, 9L0W: Dr. Karl-Heinz Ilg, DK2WV, and a group of German operators plan 160-6m operation with up to 3 stations between October 21 and November 11. They plan to conduct training courses at the University of Freetown for those who are interested in Amateur Radio.

July-Aug 2008 DX Reports

The following reports of 50 MHz DX propagation are courtesy of W5UWB, K6QXY, W6JRA, JA1VOK, G4UPS, VE7SKA, XE2HWB and postings on the Internet including OH2AQ and the VK/ZL reflectors. Apologies to any sources I may have inadvertently neglected.

Listings obtained from the OH2AQ reflector may include distances in kilometers, determined preferentially from the grids in the post, and otherwise from one or both of the prefixes of the calls. Note that the latter results in VERY rough approximations to the distances, especially for large countries and call areas.

Listings from the VK logger already have six digit grids and distances in kilometers. These have usually been shortened to fit in the available space.

The first entry is *mmddhhii*, where *mm* is the month, *dd* is the day of the month, *hh* is the hour UTC, and *ii* is the minutes after the hour. The year is understood to be 2008. Symbols just before the call of the reporting station include: V=Video Carrier, I=Inband video sidebands, F=FM audio, B=beacon, C=CW, D=Data (Snowtel?), J=Digital, typically JT6M or JT65A for EME, R=RTTY or repeater, S=SSB,

W=mode not mentioned (or both CW & SSB), H=heard only. BSc = backscatter, Sc = scatter, MS = meteor scatter, TR = tropo, I/O = In and Out.
